Summary

Fullstack developer focused on frontend development, with almost 2 years of professional experience, and passionate about enhancing user and developer experiences.

Experience

IBM

Brazil

Associate Application Developer (Remote)

2022 – 2023

Developed and maintained APIs and dependencies for Itaú, their largest Brazilian financial client.

- Enhanced workflow and user experience of the operations team, and reduced infrastructure costs by migrating a comprehensive legacy service to a cloud-native application.
- Maintained an NPS consistently above 8, while being the only IBM developer on the client team.
- Technologies include **C#, .NET, xUnit, AWS, Java 8, JUnit, Cypress, SonarQube, Fortify, Splunk, Insomnia, Git, GitLab, Jira, and Confluence.**

Associate Application Developer Intern (Remote)

2021-2022

Developed a brand-new cloud-native application for IBM Brazil's HR department.

- Integrated employee data and promotion processes, enhancing HR department workflow.
- Managed repositories, pipelines, cloud environments, and databases.
- Collaborated in a team following agile methodologies, guiding daily standup meetings, and assisting other interns with development issues.
- Technologies include **Angular, HTML, CSS, JavaScript, TypeScript, Carbon UI, Java 17, Spring Boot, Docker, PostgreSQL, Postman, Git, GitHub Enterprise, IBM Cloud, and Jira.**

Projects

Portfolio

[Go to website](#) | [GitHub Repository](#)

Professional portfolio developed to showcase my projects, articles and more.
